

Day 2 — Data Analyst Placement Practice

Foundation & Diagnostic | Full Question Paper

Section	Questions	Time
SQL — Aggregation/GROUP BY	3	10 min
Python — Lists/Dictionaries	1	5 min
Ratio & Proportion	3	7 min
Data Interpretation — Bar Graph	3	8 min
Sentence Correction	4	6 min
Blood Relations	5	8 min
Psychometric	10	2 min
Reading Comprehension	3	7 min
TOTAL	32	53 min

Section A — SQL: Aggregation & GROUP BY

Q1. Which query returns the average salary for each department?

- A. SELECT department, AVG(salary) FROM employees GROUP BY department;
- B. SELECT department, AVG(salary) FROM employees ORDER BY department;
- C. SELECT AVG(salary) FROM employees WHERE department;
- D. SELECT department, salary FROM employees GROUP BY salary;

Q2. Which clause filters groups whose average salary is greater than 60000?

- A. WHERE AVG(salary) > 60000
- B. HAVING AVG(salary) > 60000
- C. ORDER BY AVG(salary) > 60000
- D. GROUP BY AVG(salary) > 60000

Q3. What does COUNT(*) count in a grouped query?

- A. Only non-NULL values in one column
- B. The number of rows in each group
- C. Only distinct rows
- D. The number of groups before GROUP BY

Section B — Python: Lists & Dictionaries

Q4. What is printed? `arr=[4,5,4,2,5,4]; freq={}; for x in arr: freq[x]=freq.get(x,0)+1; print(freq[4])`

- A. 1
- B. 2
- C. 3
- D. 4

Section C — Ratio & Proportion

Q5. A:B = 2:3 and A+B=50. What is B?

- A. 20

B. 25

C. 30

D. 35

Q6. 5 notebooks cost ■150. What is the cost of 8 at the same rate?

A. ■210

B. ■220

C. ■240

D. ■250

Q7. A:B=4:5 and B:C=10:3. What is A:C?

A. 4:3

B. 8:3

C. 8:5

D. 5:3

Section D — Data Interpretation: Bar Graph

Q8. Bar-graph values are Q1=120, Q2=180, Q3=150, Q4=210 units. Which quarter has the highest sales?

A. Q1

B. Q2

C. Q3

D. Q4

Q9. What is the difference between Q4 and Q1?

A. 70

B. 80

C. 90

D. 100

Q10. What is the average quarterly sales?

A. 155

B. 160

C. 165

D. 170

Section E — Sentence Correction

Q11. Choose the correct sentence.

A. Each of the analysts have completed the report.

B. Each of the analysts has completed the report.

C. Each of the analysts have complete the report.

D. Each analysts has completed the report.

Q12. Choose the correct sentence.

A. The team are working on the project.

B. The team is working on the project.

C. The team working on the project.

D. The team were working on the project.

Q13. Neither the manager nor the employees ____ available.

A. was

B. is

C. were

D. has

Q14. Choose the correct sentence.

A. She has been working here since two years.

B. She is working here since two years.

C. She has been working here for two years.

D. She had working here for two years.

Section F — Blood Relations

Q15. A is the brother of B. B is the sister of C. How is A related to C?

A. Brother

B. Sister

C. Father

D. Uncle

Q16. P is the mother of Q. Q is the father of R. How is P related to R?

A. Mother

B. Grandmother

C. Aunt

D. Sister

Q17. X is the son of Y. Y is the daughter of Z. How is Z related to X?

A. Father

B. Mother

C. Grandparent

D. Brother

Q18. M is the sister of N. N is the father of O. How is M related to O?

A. Mother

B. Aunt

C. Sister

D. Grandmother

Q19. A is the father of B. B is the brother of C. C is the mother of D. How is A related to D?

A. Father

B. Grandfather

C. Uncle

D. Brother

Section G — Psychometric Speed Round — 10 Questions / 2 Minutes

Q20. What comes next? 3, 6, 12, 24, ?

- A. 30
- B. 36
- C. 48
- D. 54

Q21. All managers are employees. Ravi is a manager. What must be true?

- A. Ravi is an employee.
- B. All employees are managers.
- C. Ravi is not an employee.
- D. Some employees are not managers.

Q22. Two totals differ between a dashboard and source file. Best first action?

- A. Choose dashboard.
- B. Choose larger value.
- C. Check definitions, filters and time period.
- D. Delete both.

Q23. Odd one out:

- A. 16
- B. 24
- C. 32
- D. 45

Q24. If A=1, B=2, C=3, D=4, what is BAD?

- A. 5
- B. 6
- C. 7
- D. 8

Q25. 30 questions in 10 minutes: average time per question?

- A. 10 seconds
- B. 20 seconds
- C. 30 seconds
- D. 60 seconds

Q26. What is 20% of 150?

- A. 20
- B. 25
- C. 30
- D. 35

Q27. Complete: AZ, BY, CX, ?

- A. DW
- B. DV

C. EW

D. DX

Q28. If today is Wednesday, what day is it after 10 days?

A. Friday

B. Saturday

C. Sunday

D. Monday

Q29. A difficult timed-test question is taking too long. Best strategy?

A. Keep solving indefinitely.

B. Guess immediately.

C. Time-box it and return later if possible.

D. Stop the test.

Section H — Reading Comprehension

In business analytics, a useful metric is not necessarily the metric that is easiest to calculate. A good analyst first understands the business question and then selects a measure that represents it accurately. For example, average sales may hide large differences between customers or products. A median, distribution, or segment-level comparison may reveal a more useful pattern. Analysts should also define the time period and population being measured. Without clear definitions, two reports can produce different numbers while both appear technically correct. The goal is not merely to produce a number, but to produce a number whose meaning is clear enough to support a decision.

Q30. What is the main idea?

A. The easiest metric is always best.

B. Analysts should choose and define metrics based on the business question.

C. Average is always better than median.

D. Different reports should never differ.

Q31. Why can an average hide useful information?

A. It cannot be calculated.

B. It may hide differences between customers or products.

C. It always produces a smaller value.

D. It is only used for finance.

Q32. What can cause two technically correct reports to show different numbers?

A. Clear definitions.

B. Same population and period.

C. Different definitions, periods, or populations.

D. Using SQL.

Answer Sheet

___	Q3: ___	Q4: ___	Q5: ___	Q6: ___	Q7: ___
___	Q11: ___	Q12: ___	Q13: ___	Q14: ___	Q15: ___
___	Q19: ___	Q20: ___	Q21: ___	Q22: ___	Q23: ___

____	Q27: ____	Q28: ____	Q29: ____	Q30: ____	Q31: ____
------	-----------	-----------	-----------	-----------	-----------

Attempt without solutions. After finishing, send your answers as Q1-A, Q2-B, ... for scoring.
